Education

2019
React - The Complete Guide Course
Maximilian Schwarzmüller

2019
Algorithms and Data Structures
Colt Steel

2018
The Complete JavaScript Course
Jonas Schmedtmann

2016
Bachelor of Management
Moscow State University of Mechanical Engineering

Soft skills

- Critical thinking
- Adaptability and flexibility
- Teamwork
- Problem Solving

Nikita Savkin

Frontend Developer

Experienced frontend developer with **4 years** of cross-industry expertise in technology and retail sectors. Proficient in JavaScript, TypeScript, and modern frameworks like Vue and React, with a focus on responsive design, cross-browser compatibility, and performance optimization. Strong problem-solving abilities and attention to detail.

Experience

Happy Inc.   June 2022 - Present

Frontend Developer

Developed applications within a powerful online survey platform using React and Vue, contributing to the platform's functionality and success.

- Assembled and programmed 3 reports for the 'FeedbackX' platform to display research data in a dynamic format, resulting in a significant 10% increase in the client base
- Constructed and designed 2 new personal reports for the 'Happy Job' platform, boosting clients' ability to analyze survey data and resulting in a 8% increase in company income
- Engineered and maintained major features, including cutting-edge data visualization tools that increased data interpretation efficiency by 17%
- Developed/redesigned platform components, resulting in a decrease in user complaints and improved UX

Autodrive Agency   March 2021 - June 2022

Frontend Developer

Developed e-commerce projects for car dealers and other businesses as a frontend web developer.

- Constructed 3 high-quality e-commerce stores from scratch with mobile and desktop versions, resulting in a significant 14% increase in company income
- Engineered 3 admin panels for managing products, orders, and other site content
- Upgraded projects productivity and availability by 17% using Google Lighthouse
- Successfully removed dead code in 2 legacy projects, resulting in a significant reduction of file size by 5-8%
- Implemented ESLint and Prettier tools across projects, resulting in increased development efficiency

Freelance   September 2019 - March 2021

Freelance Web Developer

Developed and maintained websites for clients using primarily HTML, CSS (Sass), and JavaScript.

- IImplemented a "mobile-first" approach to new projects, resulting in a 20% increase in development speed
- Manually tested sites for cross-browser compatibility and responsiveness
- Adopted modern coding standards and utilized ES6 syntax to write performant and robust code for a diverse range of web projects.
